

## **Montgomery College** **Men's Division 3 Ice Hockey FAQs**

### **What does a season look like?**

- A season consists of 15-20 games, not including playoffs.
- Games are played on Friday nights, Saturday afternoon or night, and occasionally Sunday afternoons.
- There is 1 practice a week that is typically 70-90 minutes at a time.
- Practices are held at Rockville Ice Arena on weeknights in the evening after all classes are ended.
- The season starts in mid-September and ends in February with playoffs being held last weekend of February.

### **What is the cost?**

- Cost for the season is \$1,250 per player, this includes cost for jerseys, socks, shell, travel cost, ice time, and league fees.

### What is the skill level?

- We play in the Lower M3 Division of the Atlantic Coast Collegiate Hockey League (ACCHL). Throughout the year we tend to play teams in the Upper M3 and Lower D2 divisions as well.
- Most D3 players in our division have at least AA/Upper A travel level hockey experience and skill.

### What is the travel like?

- There are many teams local (D.C.-area) teams and we try to play most of them twice to do the least amount of travel as possible.
- Half the games in the season are played “away”. The furthest teams we travel to include West Virginia University and Old Dominion University, both about 3-4 hours away. We normally have only 2-3 overnight road trips a year.

### Mid-Season Breaks

- There are no practices or games during Thanksgiving and Winter break.
